

**Photographer:** Lorraine Edmunds

**Location:** Flinders Ranges

#### DustWatcher comments:

“ Local sediment + blown in from NE - terrible weather! ”

*Start as haze and just got thicker all day. Worst day for years not a strong wind but very little visibility*

#### Additional images:

**laid 1mm of dust inside on every surface**

#### Brief synopsis of event:

DustWatchers made the following observations:

Location	Event Time	Visibility (km)	Dust colour
